

Dr Wallace Brownlee

Dr Wallace Brownlee is a Consultant Neurologist and Clinical Lead for the Multiple Sclerosis Service at the National Hospital for Neurology and Neurosurgery, and Honorary Associate Professor at UCL Institute of Neurology. He completed undergraduate and postgraduate training in New Zealand before moving to London to undertake PhD studies. His thesis and ongoing research focuses on the use of MRI to improve the diagnosis of MS; the identification of imaging predictors of long-term outcomes; and understanding mechanisms responsible for disability and disease progression in MS using advanced MRI. Dr Brownlee is Principal Investigator for a number of ongoing phase III clinical trials in MS and NMOSD, and Associate Editor of *Multiple Sclerosis Journal* leading on case reports and social media.
