

## Prof dr Per Soelberg Sörensen

Professor of Neurology at the University of Copenhagen and senior consultant at the Department of Neurology, Rigshospitalet, Copenhagen, Denmark

He is the founder of the Danish Multiple Sclerosis Center.

Core elements in his research include development of new MS therapies, translational and biomarker research, and he has initiated and conducted several large international trials.

He has authored more than 400 scientific publications, 353 of which are indexed in PubMed. Professor Sorensen was Founding Editor-in-chief of the European Journal of Neurology from 1994 to 2003 and is currently member of the editorial board of Multiple Sclerosis Journal, European Journal of Neurology, Therapeutic Advances in Neurological Disorders, and Multiple Sclerosis and Demyelinating Disorders.

Professor Sorensen is Secretary General of the European Committee for Treatment and Research in Multiple sclerosis (ECTRIMS); Executive Board member of the European Academy of Neurology; Executive Board member of the European Charcot Foundation for Research in Multiple Sclerosis; Member of the Medical Advisory Board of the International Federation of Multiple Sclerosis Societies (IFMSS); Member of the International Advisory Committee on Clinical Trials in MS, under the sponsorship of the US National MS Society and ECTRIMS; and Chairman of the Danish Multiple Sclerosis Group.
